RE: Endorsement of revised 2016 National Education Curriculum

Dear Ms. Weiland:

On behalf of our 5200+ members, the Society for Vascular Ultrasound endorses the revised 2016 National Education Curriculum. As active participants in the review process, we can attest that the final NEC product reflects current technology and knowledge required of an entry level sonographer. In addition, we welcome the formatting changes to make the NEC more user friendly.

SVU is proud of our long standing affiliation with JRC-DMS, and we will continue to avidly support your high standards, thorough review processes, and intersocietal approach.

Sincerely,

A handwritten signature in black ink that reads "James F. Wilkinson". The signature is written in a cursive, flowing style.

James Wilkinson, MA CAE
Executive Director
